

The Secret Of My Success

(Transcribed into English)

by

Cristina Rizo Patron

President...woman....Peru

A WOMAN

Oh, yes, a woman president!

IN POWER

Oh, a Peruvian woman!

Not yet

Why not?

Sure, of course!

Why couldn't it be possible?

Yes

A woman

Yes, I would like that

She would change Peru a lot

She would think about everyone, people in the lower class and

People in the upper class

It would be very lovely, very beautiful

That would be different

because that has never happened here, in Peru

**IN THE 20TH CENTURY 32 WOMEN HAVE BEEN PRESIDENTS AND MINISTERS
24 OF THESE WOMEN HELD POWER IN THE 90's**

AND IN PERU?

Men should have the opportunities, but look at how many women are working....

That's it.

Look at the way we work!..we are more conscientious workers than men....

Oh she knows, she knows!

In the company where I work, the best ten sales people are women...women
are more aware of the reality we live in...

men have other priorities...

a woman would assure that we had a better life here in this country

Do you think that there could be a woman president in Peru?

Yes

We women can also be presidents.

There are no differences

Between women and men,

We women can also be presidents

Why not?

Would you like a woman president in Peru?

Yes

Why?

ARE WE WILLING TO BE GOVERNED BY WOMAN?

Sure! Women are already everywhere.

Why can't they govern?

We have women officers in the Navy, the Air Forces, the Army

Also policewomen, we have women prosecutors, and we believe

That it is possible to have a woman president

Yessss!

Maybe the next head of state will be a woman

ARE MEN WILLING TO SHARE POWER?

Not only to share.... I do not find any difference between the ability of a man or a woman to perform any job or any type of activity

I believe that anyone who is afraid of a larger participation of women in power should see a psychiatrist

WHAT DO PEOPLE EXPECT OF A WOMAN PRESIDENT?

That she not govern like a man.

We are tired of women's governments that

are like those of men, who govern like Margaret Thatcher, as if they were men

We need a change: that where women govern like men

Women are harder workers than men

Women are more honest

She should make women's rights be respected and impose order, because many women in Peru are suffering

HOW DO YOU IMAGINE HER?

Perhaps a lady can make herself be better respected

She should speak quechua

She should have a good heart

DO WOMEN WANT POWER?

Women have to take charge. Many times we have to defy customs. Raise our voices more to be heard

I think that women, in many ways, are passive and are responsible that we have a certain type of heads and that men have a certain kind of powers

WHEN?

The coin is the woman president and women are close (to power) by 2005

The people are asking for another mindset

I am the new president of Peru and I would like to help all the women
